V1

We been talkin' half the night
But I'm just hearing voices in my head
Telling me, "Just watch your step
Mind the gap boy, look out for the edge"

Pre

Cause I've been broken before
Picking pieces off the floor
But I'm still looking for a girl like you.

I'm a little fragile, shattered and bruised
Yeah I got a little black and blue
So gun shy looking for a girl like you

Ch1

I'm just a lightbulb in a box
Taped shut full of rocks
And I'm just tumbling down

Like a lightbulb in a box
Yeah I'll be turned to dust
If I keep tumbling down

V2

They say once bitten, twice as shy
But when it comes to you I'd take that chance
I'd pull myself together girl
And I'd put every fragment in your hands

Pre

Ch2

(Whistles)

Ch3 (breakdown)

Ch4

Cause I'm a lightbulb in a box

Taped shut full of rocks

And I'm just tumbling down

Just a lightbulb. Won't take much

Til I get turned to dust

If I keep tumbling down

(Whistles)
