

# Stay

By Justine Vandergrift

Take your heart  
Like a drink off a tray  
Play the part  
Cause we wrote it that way  
Every year that goes by  
Doesn't change the way it feels

I'm alright  
With the highs and the lows  
In a place  
Only you and I know  
But I'm through  
Waiting round for a better kind of you

**If you wanna go on hiding from yourself  
Would you be so kind and take me off your shelf?  
In times like these you turn and walk the other way  
Until you find something that makes you wanna stay**

Play for keeps  
Or don't play it at all  
Why'd you cheat  
When you're just gonna fold  
But I don't care, I don't care  
About the games you're playing now

I'm on fire  
But I can't be burned again  
This desire's  
Got me spinning  
Moving on  
Finally knowing how much I gave to you

**If you wanna go on hiding from yourself  
Would you be so kind and take me off your record shelf  
In times like these you turn and walk the other way  
Until you find something that makes you wanna stay**
